

2024 Ohio Educator Preparation Provider Performance Report Baldwin Wallace University

Ohio Teacher Evaluation System (OTES) Results for Ohio Teachers Prepared by an Ohio Educator Preparation Provider at Baldwin Wallace University

Reporting period from September 1, 2023 to August 31, 2024.

(Data Source: State Board of Education)

Description of Data:

Ohio's system for evaluating teachers (Ohio's Teacher Evaluation System) provides educators with a detailed view of their performance, with a focus on specific strengths and opportunities for improvement. The system is research-based and designed to be transparent, fair, and adaptable to the specific contexts of Ohio's school districts. Furthermore, it builds on what educators know about the importance of ongoing assessment and feedback as a powerful vehicle to support improved practice. Teacher performance and student academic growth are the two key components of Ohio's evaluation system.

Note that the data on this page is not a chronological view of evaluations. Rather, it's a view of the evaluations from that school year, showing four different cohorts of licensed educators. The most recently licensed cohort will eventually have more evaluation results in its second year as more educators find employment as teachers or principals.

Limitations of the Ohio Teacher Evaluation System (OTES) Data:

1. The information in the report is for those individuals receiving their licenses within the previous four effective years.
2. The teacher evaluation data in this report are provided by the Ohio Department of Education.
3. Due to ORC 3333.041(B), annual results must be masked for institutions with fewer than 10 completers with OTES data.

Description of Data:

Ohio's system for evaluating teachers (Ohio's Teacher Evaluation System) provides educators with a detailed view of their performance, with a focus on specific strengths and opportunities for improvement. The system is research-based and designed to be transparent, fair, and adaptable to the specific contexts of Ohio's school districts. Furthermore, it builds on what educators know about the importance of ongoing assessment and feedback as a powerful vehicle to support improved practice. Teacher performance and student academic growth are the two key components of Ohio's evaluation system.

An apparent dip in evaluations for the most recent "Initial License Effective Year" cohort comes from the perception that any given year's evaluation results is actually a chronological view of evaluations. Rather, it's a view of the evaluations from that school year, showing four different cohorts of licensed educators. The most recently licensed cohort will eventually have more evaluation results in its second year as more educators find employment as teachers or principals.

Limitations of the Ohio Teacher Evaluation System (OTES) Data:

1. The information in the report is for those individuals receiving their licenses with effective years of 2019, 2020, 2021, and 2022.
2. The teacher evaluation data in this report are provided by the Ohio Department of Education.
3. Due to ORC 3333.041(B), annual results must be masked for institutions with fewer than 10 completers with OTES data.
