

5 REASONS YOU SHOULD MAJOR IN ACCOUNTING AT BW

1. Technology Driven Curriculum

Includes data analytics, Excel Certification, Bloomberg Certification, and CPA Review Course in preparation for working in accounting profession and CPA licensure readiness.

2. Active Student Accounting Association and Accounting Advisory Board

Our Accounting program is employer-driven, and our courses reflect up-to-date and emerging best practices. Network with industry professionals both on and off-campus. Connect with peers and industry professionals in class and through social events, educational programs, and more.

3. Full-time Accounting Faculty Teach and Advise Students

Learn from leading corporate accountants, accomplished CPAs and CFEs, and industry thought-leaders, not teaching assistants. Our faculty go beyond books and lectures, bringing experiences to life—and their vast network of contacts—in the classroom.

4. Small Class Sizes

At BW, you are not a number. You will get to know your classmates and your professors in our rich learning environment. It is never too late to start building your professional network; you and the people sitting next to you in class could be future leaders in accounting firms or corporations.

5. Opportunities

The Accounting profession is thriving! BW's Accounting programs are designed to have built-in recruiting opportunities to secure internships and full-time job placements upon graduation. Students also have the chance to serve the community and develop skills by providing free tax preparation services during the Spring semester Tax Clinic.
