

APPLICATION INSTRUCTIONS FOR UNDERGRADUATE ADMISSION 2023-2024

The Baldwin Wallace University community is made up of students with varied interests and diverse socioeconomic, geographic, racial, ethnic and religious backgrounds. The admission committee carefully examines the academic achievement and aptitude of every candidate for admission to Baldwin Wallace University. The goal of the admission committee is to admit students who can best benefit from and contribute to the academic program and life of the University.

While no minimum grade point average is specified, students must provide evidence of their preparation and fit for future success at Baldwin Wallace University consistent with code of conduct statements for the University, program or profession. All aspects of a student's application are considered and used as the primary means for informing an admission decision. The first-year class profile, found at bw.edu/first-year-profile, provides preparation metrics for the most recently enrolled class.

To make a qualified decision, the admission committee requires the following information for each applicant:

- Completed application for admission
- Personal essay
- Official high school transcripts
- School Report form
- Teacher Recommendation form (optional)
- Official college/university transcripts – If you have enrolled in college courses, send official college/university transcripts directly to the Office of Admission from each institution attended.

Standardized test scores (ACT/SAT) are not required for admission to BW. BW has a test-optional admission policy. If students believe their test scores show additional evidence of preparation for BW, they can be submitted and will be considered during the holistic review of a student's application to BW. BW's merit scholarships are based on a student's cumulative weighted high school GPA, and the merit level is established at the time an admission decision is made.

Please note, test scores are required for all homeschooled students and for international applicants who have taken an English-language curriculum.

The admission committee has determined that the following high school curriculum will best prepare most students for academic success at BW:

| | <i>Minimum</i> |
|--|-----------------|
| English..... | 4 units |
| Mathematics (including Algebra II)..... | 4 units* |
| Natural Science (with labs preferred)..... | 3 units* |
| Social Science..... | 3 units |
| Foreign Language..... | 2 units |
| Academic Electives..... | 3 units |
| Total..... | 19 units |

**Candidates considering majors in the sciences or mathematics are encouraged to complete four units each of mathematics and science, including pre-calculus, biology and chemistry with a lab, in their high school program.*

Baldwin Wallace University does not discriminate on the basis of race, creed, age, disability, national origin, gender or sexual orientation in the administration of any policies or programs.
